

# Rasha Houjeiry

## Junior Front-End Developer

Phone: 81 442 774 | Email: rashahujeiry555@gmail.com | Remote

### PROFILE

Junior Front-End Developer with a background in Software Programming and a strong interest in building responsive, user-friendly websites. Currently focused on HTML5, CSS3, JavaScript, and working with APIs. Seeking a remote opportunity to gain professional experience, contribute to real projects, and continue developing as a front-end developer.

### TECHNICAL SKILLS

- HTML5 — semantic and structured web development
- CSS3 — responsive layouts and modern styling
- JavaScript — DOM manipulation, events, and interactive features
- REST APIs — Fetch API and asynchronous JavaScript
- Responsive Web Design

### PROJECTS

**E-Commerce Website** — Responsive online store with product search, category filtering, shopping cart functionality, and interactive features using HTML, CSS, and JavaScript.

**Restaurant Website** — Modern responsive restaurant website with menu cards, order interactions, and contact functionality.

**Weather App** — Weather application using JavaScript, Fetch API, async/await, and a weather API to display city weather information.

### EDUCATION

#### Al-Bekaa Industrial Institute

Information Technology — Software Programming

### CAREER OBJECTIVE

Looking for a Junior Front-End Developer or entry-level web development opportunity, preferably remote, where I can apply my programming knowledge and grow through real-world experience.

### LANGUAGES

Arabic — Native | English — Working proficiency | French — Working proficiency
